# THE ESSENCE OF *Quality*

With over 50 years of experience in the field, we at Cocoweb have proved ourselves to be one of the most venerable and distinctive lighting manufacturers in the industry. Cocoweb lights are built from the highest quality materials and the latest lighting technology, and handcrafted to perfection by our design professionals. The quality and innovation of our products has always been our most important goal, and our dedication to craft is recognized worldwide: our designer lights can be found in upscale homes, restaurants, luxury resorts, photo studios, art galleries, and museums all around the globe. Whether it's an art light for your latest piece, a piano lamp for your musical marvels, or a barn light for your designer home, we invite you to add our lights to your collection.

Sincerely,

*Wayne*

# WHY SHOULD YOU CHOOSE LEDS?

## Advantages of Using LEDs

- **Energy Efficiency:** Cocoweb LEDs work at the highest levels of efficiency and don't waste any electricity on heat like conventional bulbs
- **Life Expectancy:** LEDs don't contain filaments that can burn out, increasing their use-time to a tremendous 50,000 hours
- **Natural Lighting:** Cocoweb LEDs shine at a warm 2700 Kelvin color temperature to match the warm yellow of natural sunlight
- **Environmentally friendly:** LEDs create pure light that's free from harmful UV radiation

## Replacement of LEDs

All of our lights come with a pre-installed LED lighting array for instant-on illumination. Cocoweb LEDs last for nearly 20 years with average use and are guaranteed under our industry's best 2-year warranty. And to make sure your lamp truly lasts a lifetime, the LEDs are easily removed and replaced.
